

Amendments to the Specification:

Please add the following new paragraph at page 1, before the paragraph beginning at line 4:

This application is a continuation of prior Application No. 10/061,761, filed February 1, 2002, which is a continuation of PCT Application No. PCT/FR00/02213, filed August 1, 2000, which claims priority to French Application No. 99/10032, filed August 2, 1999. The entire text of these applications are specifically incorporated into this specification by reference.

Please add the following heading at page 1, line 4:

1. Field of the Invention

Please add the following heading at page 1, line 7:

2. Description of Related Art

Please add the following heading at page 3, line 28:

SUMMARY OF THE INVENTION

Please add the following heading at page 13, line 9:

DESCRIPTION OF ILLUSTRATIVE EMBODIMENTS

Please add the following Abstract immediately following page 26:

ABSTRACT

The invention is a composition comprising: 40 to 95 parts by weight of one or several monomers (I) of formula (a) wherein: R_1 and R_2 represent H or CH; A represents a divalent radical of formula (b) or (c) wherein m_1 and m_2 represent each an integer ranging between 2 and 6; and 5 to 50 parts by weight of a monomer (II) comprising at least a urethane unit and at least two (meth)acrylate functions. The invention is useful for making optical and ophthalmic articles.
